

1.	Véhicule garé	
		
2.	Véhicule est chargé (Lampe allumée en vert)	Véhicule n'est pas chargé (Lampe n'est pas allumée)
		
3.	Laisser l'interrupteur principal allumé	Éteindre l'interrupteur principal
		

Cela permet d'éviter que les batteries 24 V ne se déchargent et que le véhicule ne démarre.

1.	Vehicle parked	
		
2.	Vehicle is charged (Lamp lights green)	Vehicle is not charged (Lamp does not light)
		
3.	Main switch remains „On“	Main switch has to be switched „Off“
		

This is to prevent the 24 V batteries from discharging and the vehicle from starting.
